PowerChart Upgrade – October 17, 2010

Current State vs Future State Analysis

The following activities, processes or workflow steps will **START**, **STOP** or **CONTINUE** (remain the same).

Roles: Nursing and Patient Care Techs (PCTs)		**START**	**STOP**	**CONTINUE**
Login to the Computer				No change
Patient Assignment				No Change
Handoff Communication				
	Shift Report			No change
Physician and PA/ARNP	Use of Inbox (direct communication between clinicians, results review or signing)			No change
Patient Lists and PAL				No change
MPTL and Task List				No change
Results Review				
	Review lab Results			New Micro Viewer
	Review Radiology Results			No change
	Reviews other Diagnostic Study Results			No change
	Reviews Clinical Notes			No change
	Review discrete data documentation (ie: Nursing Flowsheet/I-View)	IView for system and focused Assessments, Devices and Lines, ADL, I/O, Hemodynamics, Vent Assessment, vital signs		Form Browser or Assessments Tab in Result Review
	Caredex			No Change
	SBAR			No Change
Shift Charting - Ongoing Care & Interventions Charting				
	Activity List/PAL (Nursing)			No change
	Vital Signs	In IVIEW	Vital Signs & Orthostatic Vitals PowerForm	
	Heights and Weights	In IVIEW	Height & Weight PowerForm	
	Hemodynamic Documentation (ICUs)	In IVIEW	Hemodynamic PowerForm	
	Telemetry Documentation	In IVIEW	Telemetry Vital Signs	Monitor Techs charting and mounting of rhythm strips and interpretations
	ADL	In IVIEW	ADL PowerForm	
	Daily Assessments - Review of Systems	In IVIEW	Ongoing Assessment PowerForms	
	Focused Assessments	In IVIEW	Focused Assessment PowerForms	
	Psychosocial Assessment	In IVIEW	Psychosocial PowerForm	
	Pain Assessment	In IVIEW	Pain Evaluation PowerForm	
	ED Triage			No change
	ED Primary Assessment	New Design History Form		Still Called Primary Assessment
	ED Secondary Assessment	In IVIEW	ED Secondary Assessment PowerForm	
	Ongoing Assessments	in IVIEW	Ongoing Assessment PowerForms	
	Urinary Catheter Assessments	in IVIEW	Urinary Catheter charing on PowerForms	
	Restraints			No Change
	Patient Care Interventions			No Change
	CBI - Continuous Bladder Irrigation	in IVIEW Band		
	Intake and Output	in IVIEW Band	Peds Intake and Output PowerForm	
	eMAR			No change
	Bolus Tube Feedings			No change
	Central/Arterial/Peripheral Line	in IVIEW	Intravascular Access PowerForm	
	Tubes and Drains	in IVIEW	Tubes and Drains PowerForm	
	CIWA-Ar Assessment	in IVIEW	CIWA-Ar Assessment PowerForm	
	Nursing FIMS	in IVIEW	CRC Nursing FIMS	
	IV Bag charting			No change
	IV Titrations			No change
	Point of Care Testing - Glucose			No change
	Patient Supplies and Equipment			No change
	Patient Education			No change
	End of Shift Documentation Note			No change
Order Management				
	Orders on Admission			No Change
	Nurse Review of New Orders			No Change
Admissions, Transfers and Discharges				
	Admission Assessment		Admission Assessment PowerFrom	
	Patient History	New Designed History Form		Patient History Powerform
	Medication History--for all Roles	New Designed History Form		Patient History Powerform or Med List Section in Patient Chart
	Pre Admit History	New Designed History Form		Patient History Powerform
	Ambulatory Care Log (OPIS)	New Designed History Form		Patient History Powerform
	Transfer Documentation			No Change
	Discharge Documentation			No Change
	Expirations - Deaths			No Change
	Leaving Against Medical Advice			No Change
Ancillary Charting and Workflow				
	PT Workflow			No change
	OT Workflow			No change
	SLP Workflow			No change
	WOC Workflow	IView for Skin and Wound documentation		No change
	Nutrition Workflow	IView for measurements, system assessment		Change to Nutrition Assessment
	Diabetic Specialists Workflow			No change
	Dialysis Workflow			No change
	RT Workflow	Ventilator charting in ICUs will be in IVIEW		No change
