

Contracted Physician Groups

During a hospital visit, NCH patients will receive care from our affiliated healthcare providers. Because of this, patients could receive bills directly from the provider for the services rendered. The affiliated health care providers may or may not participate in the same insurance plans as NCH. It is encouraged that patients contact their physician(s) and/or insurance company to determine if the provider of health care service participates with their plan and to ask for information about additional out-of-pocket costs.

Below is the list of NCH contracted physician groups and providers which bill for their services separately from the hospital visit.
