

A close-up photograph of a newborn baby's hands and feet. The baby is wearing a white diaper and a blue hospital identification band on its right wrist. A grey medical sensor is attached to the baby's right hand, with blue wires extending from it. The baby is lying on a white surface.

# Your baby's life shouldn't begin with detox

**A baby's health depends on the mother's health.**

**Talk to a medical professional about all medications you are taking, including prescription pain pills, to protect your baby from Neonatal Abstinence Syndrome.**
