

NAPLES COMPREHENSIVE HEALTH

Mazen AbuAwad, MD

Executive Director of the Wingard Stroke Institute;
The John and Susan Morrison Endowed Chair;
Naples Comprehensive Health (NCH)

Dr. AbuAwad, a highly accomplished diagnostic, vascular, and interventional radiologist at NCH, is recognized in the SWFL region for performing progressive life-saving interventions.

With over 29 years of experience, Dr. AbuAwad also serves as a primary investigator on several research studies and has disseminated his findings locally and internationally, presenting his recent study, "Endovascular Therapy for Acute Ischemic Stroke" in Greece, April 2018. He just wrote a book "Journey To The Brain". This book is aimed to educate stroke patients and their families, and the public in general about stroke and the treatment of stroke. It is based on our over than 20 years experience in talking to patients and their families and hearing their questions and concerns.

Dr. AbuAwad received his medical degree from Albert Szent-Györgyi Medical University, Cum Laude, Szeged, Hungary. He completed his internships, residency, and fellowship at several U.S. institutions including Boston University medical Center, Omaha, Nebraska, & OSF St. Francis Medical Center, Peoria, IL.

He is certified by the American Board of Radiology and is the recipient of the Excellence in Education Award, and American's Top Physician recognition.
